EDUCATION

LEAD CITY UNIVERSITY
Bachelor of Science (B.Sc.),
Computer Science
October 2021 – July 2025

CERTIFICATIONS

NEW HORIZONS SYSTEMS SOLUTIONS LTD

Full-Stack Development Program
(Front-End + Back-End)
July 2023 – December 2025

Front-End Development
2024

PROFESSIONAL SUMMARY

A driven IT professional with academic and practical experience in system support, software development, and creating user-focused digital solutions. Solid background in computer scientific concepts, troubleshooting, and problem-solving, along with real-world experience in web and mobile development with the MERN stack, React, Vue, and Laravel. I recently finished a competitive internship at HNG, where I contributed to practical projects on mobile and web platforms.

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript, React.js, React-Native, Vue.js, Next.js, Bootstrap, TailwindCSS, WordPress, Twig
- Backend: Node.js, Express.js, Laravel, PHP, MySQL
- BAAS: Firebase, Convex
- Tools & Systems: Git, GitHub, Chrome DevTools, LocalStorage APIs, Windows OS Troubleshooting, **Cloudinary** (Image & media storage, optimization)
- Productivity & Documentation: Microsoft Office Suite (Word, Excel, PowerPoint), Project Documentation
- Other Skills: Problem-solving, debugging, responsive design, workflow optimization, team collaboration

PROFESSIONAL EXPERIENCE

HNG Internship (HNGi13), October 2025 – December 2025
Frontend / Full-Stack Developer Intern

- Building and maintaining modern web interfaces using React, Vue, Twig, and React Native.
- Collaborating with a distributed team on scalable web projects and testing-ready applications (Nora Mum Mentor - Mobile App).
- Improved code accessibility and responsiveness across multiple screen sizes.
- Contributed to UI/UX optimization and API integration tasks in group and individual projects.

New Horizons Systems Solutions Ltd Lagos, Nigeria, July 2023 – November 2025
Student / Developer

- Completed intensive training in front-end and still training back-end web development (MERN stack, Laravel, PHP, MySQL).
- Designed and deployed several projects demonstrating skills in programming, system integration, and performance optimization.
- Troubleshot and resolved frontend and backend issues, ensuring smooth deployments.
- Collaborated in team-based development environments, following modern software development practices.

Oluwatobiloba Bamidele-Nelly

ACHEIVEMENTS & HIGHLIGHTS

- Successfully built and deployed multiple full-stack web applications independently.
- Gained real-world collaborative experience through HNG internship projects.
- Recognized for strong design consistency, clean code, and attention to responsive UI detail.
- Developed reusable components and utilities across different frameworks (React, Vue, Twig).

SELECTED PROJECTS

- Audiophile E-commerce Website (React + LocalStorage)

HNG Internship challenge | Full-Stack

- Built a fully responsive e-commerce website where users can add, edit, and remove products from the cart.
- Implemented checkout validation, VAT calculation (20%), and persistent cart storage with LocalStorage.
- Focused on accessibility, device-adaptive layouts, and seamless UI consistency.
  GitHub Repo: https://github.com/Tbnelly/audiophile-ecommerce

- TicketWave — Ticket Management App (React, Vite, TailwindCSS)
  - Developed a modern ticket management system with authentication, dashboard, and CRUD operations.
  - Implemented LocalStorage persistence and custom toast notifications for real-time feedback.
  - Built reusable components (Navbar, Footer, Toast, StatsCard) and structured pages for modularity.

- HNG Stage 0 — Profile Card (HTML, CSS, JavaScript)
- HNG Internship

  - Built a responsive and accessible profile card showing user data, hobbies, dislikes, and live time updates.
  - Optimized for keyboard navigation and mobile friendliness.
    Live Demo: https://stage-0-hng-profile-card.vercel.app/

- HNG Stage 1 — Contact & About Pages (HTML, CSS, JavaScript)

HNG Internship

- Created Contact and About pages with form validation and semantic structure.
- Included testing identifiers for automation and accessibility compliance.
  Live Demo: https://tbnelly.github.io/Stage-1-HNG-Contact-and-About-Page/
  GitHub Repo: https://github.com/Tbnelly/Stage-1-HNG-Contact-and-About-Page

- Product Card & Landing Page Projects (Frontend Mentor)

FrontendMentor.io Challenge

- Created pixel-perfect responsive UIs using HTML, CSS, JavaScript, and React.

Applied best practices in layout design, component organization, and responsiveness.
